

You can get to Pepperdine (in blue below) via either the 101 and then south on Las Virgenes/Malibu Canyon, or via Highway 1, the Pacific Coast Highway (PCH).

Once at Pepperdine, head up Seaver Drive. There is a guard's booth, which you can stop at to let them know you are here for Math Day, although you should not need any sort of special parking pass. Proceed up Seaver Drive, going straight at the stop sign.

Turn left toward Parking Lot M (it used to be Parking Lot B, as shown in the picture below). There will be a gate at which one of our Pepperdine student helpers will let you through to the parking lot. Park anywhere (other than special spots, e.g. handicapped), as on Saturdays there is open parking.

The main events of Math Day will be held in Elkins Auditorium (building 36 in map). Come down the steps to get there. You will see the registration tables.

Please arrive between approximately 9:00 and 9:15 a.m., as events begin at 9:30.
